

Frame to Finish Carpentry Clinic

with Mike Sloggatt

Friday, May 27
Schutte Lumber Co.
3001 Southwest Boulevard
Kansas City, MO 64108

Mike Sloggatt is a frequent contributor to the Journal of Light Construction magazine and writes for Fine Homebuilding and Tools of the Trade, in addition to moderating the JLC Rough Carpentry Forum. Mike teaches seminars and clinics in all aspects of carpentry and remodeling and is a regular presenter at JLC Live, The Remodeling Show, and the International Builders' Show. He takes education seriously, especially for the construction industry, and appears frequently at association meetings, including NARI and other regional builder and material groups and lumber yards. Mike has more than thirty years experience and specialized in high end challenging remodels near his home on Long Island.

Schutte Lumber Co., with support from WindsorONE, Andersen Windows & Doors, Festool, Typar, and Versatex, is proud to offer one day of hands-on building clinics with Mike Sloggatt, remodeling specialist and a nationally recognized author and teacher.

These clinics will highlight WindsorONE's new line of Classic American Moldings, Andersen replacement windows, as well as new, innovative tools from Festool, Typar's weather-protection system, and Versatex trimboard. Don't miss this educational opportunity as well as the special discounts, give aways, and coupons for some of the best tools in the industry.

Continuing Education Credits & Certification are available for all events. For more information, or to book a show, contact Tristan@GaryMKatz.com or visit KatzRoadshow.com.

7:30 - 8:30

HOT BREAKFAST

1
SESSION

8:30 - 9:30

Waterproof Windows & Doors

Understanding bulk water, water vapor, and air transfer, including the proper installation of windows and exterior doors while maintaining a water-tight weather resistive barrier. Techniques for correct flashing and housewrap coordination, from sill pans to self-adhesive membranes and site-made metal flashings. A review of pre-assembly trim techniques for window and door trim.

2
SESSION

10:00 - 11:00

Water Management

Roofs, Sidewalls & Trim

See the Whole Picture. Using a moisture meter and understanding wood movement from interior floors to exterior trim. Managing bulk water on roofs and sidewalls: waterproof underlayment, flashing and step flashing techniques. Traditional techniques and new methods for installing exterior trim.

11:00 - 12:00

LUNCH

3
SESSION

12:00 - 1:00

Solving Porch Problems

Learn proper ledger placement & mounting techniques that ensure durability and strength. Take the worry out of working with treated lumber with a crash course on the latest ACQ-compatible fasteners and hardware. Start your porch stair with a story pole so you'll always pass inspection, and pick up a simple technique for hanging stringers and aligning handrail that will save your hair from head scratching.

4
SESSION

1:30 - 2:30

Sunburst: Design to Assembly

Thermal expansion and joinery techniques for pvc trim—pressure fitting, fasteners, adhesives, and caulking. Designing durable decorative trim. Using construction calculators and traditional dividers for circular work. High-end trim with jobsite tools.
